

SAIKUMAR BOMMANA

Software Engineer · DSA · Generative AI Developer · Multi Agents System · Google Cloud

☎ 8919643702 | saikumar78200@gmail.com | [LinkedIn](#) | [GitHub](#) | [Medium](#) | Nellore, Andhra Pradesh, India

PROFESSIONAL SUMMARY

Aspiring Software Engineer with strong foundations in Data Structures & Algorithms, Object-Oriented Programming, and Backend Development. Experienced in building and deploying AI-powered applications using Generative AI, Multi-Agent Systems, FastAPI, Docker, and Google Cloud Platform. Skilled in designing scalable, cloud-native solutions and applying software engineering principles to solve real-world problems through intelligent systems

TECHNICAL SKILLS

Programming Languages: Java · Python · SQL

Core Computer Science: Data Structures & Algorithms · Object-Oriented Programming (OOP) · DBMS · Operating Systems

Artificial Intelligence: Generative AI · Multi-Agent Systems · Prompt Engineering · Google Gemini API · Agent Development Kit (ADK)

Backend Development: FastAPI · REST APIs

Cloud & Data Engineering: Google Cloud Platform (GCP) · BigQuery, Cloud Run · Zero-ETL Data Federation

DevOps & Tools: Docker · Git · GitHub · VS Code

Web Technologies: HTML · CSS · JavaScript

PROJECTS

Project 1: AI Travel Companion

- **Developed and deployed a multi-agent AI Travel Companion** integrating 5 specialized AI agents for itinerary planning, budget optimization, weather analysis, food recommendations, and local exploration.
- **Automated end-to-end travel planning workflows**, reducing manual trip research effort by consolidating recommendations into a single AI-powered platform
- Built and exposed **RESTful APIs using FastAPI** and containerized the application with Docker for scalable cloud deployment
- **Deployed on Google Cloud**, demonstrating cloud-native architecture, containerization, and API-driven service design.
- **Published technical documentation and architecture** design on Medium, improving project visibility and knowledge sharing

Tech Stack: Python, FastAPI, Gemini AI, Docker, Google cloud

Project 2: Multi-Agent AI System using Google Cloud ADK

- **Engineered a multi-agent workflow using Google Cloud ADK** consisting of multiple collaborative AI agents for task delegation and orchestration.
- **Implemented agent-to-agent communication** mechanisms enabling coordinated decision-making across interconnected workflows.
- **Applied modular agent architecture patterns**, improving maintainability, scalability, and component reusability.
- **Leveraged Gemini-powered reasoning** capabilities to automate complex task execution and response generation.

Tech Stack: Google Cloud ADK, Gemini, Agent Systems

Project 3: AI-Powered Data Analytics Agent with BigQuery

- **Built an AI-powered analytics assistant** capable of translating natural language prompts into BigQuery-driven analytical workflows.
- **Automated data exploration** and insight generation, reducing dependency on manual SQL query construction.
- **Integrated Generative AI with cloud-scale** analytics services to generate actionable summaries from large datasets.
- **Utilized Google Cloud services** for scalable data processing and reporting workflows.

Tech Stack: Google Cloud ADK, Gemini, Agent Systems

CERTIFICATIONS & ACHIEVEMENTS

-
- Selected **among 1,000 developers across the Asia-Pacific region** for Google Cloud "Meet the Builders" program, recognized for building and showcasing AI-powered solutions.
 - Completed "**Engineer AI Agents with Agent Development Kit (ADK)**" - Google Cloud.
 - Completed "**Build AI Agents with Agent Development Kit (ADK)**" - Google Cloud.
 - Completed "**AI-Powered Data Analytics Agent with BigQuery**" - Google Cloud.
 - Completed "**Zero-ETL Data Federation Platform**" - Google Cloud.
 - Selected participant of **Gen AI APAC Academy Cohort 2**, focused on advanced Generative AI and Agentic AI technologies
 - Earned the **Microsoft AI Skills Challenge Badge**, demonstrating proficiency in AI concepts, Generative AI, and AI-powered applications
 - Successfully completed **Code Vipassana Season 15**, strengthening problem-solving and software development skills.

EDUCATION

(2024-present)

Bachelor of technology(B.Tech) in Electronics and Communication Engineering

Narayana Engineering College, Nellore,Andhra Pradesh| Expected Graduation:2028|

CGPA:8.0/10
